

BREATHE BETTER

with Air Filter Supplies

The REME-HALO® Total Indoor Air Purification System

The REME-HALO® utilises RGF's patented REME® Cell technology with UV-C light to create low level, airborne hydrogen peroxide throughout the air-conditioned space reducing airborne and surface bacteria, viruses, odours and mould.

The REME-HALO® in-duct air purifier actively neutralises pollutants at the source ensuring excellent indoor air quality.

450 - 3100 l/s

CELL REPLACEMENT
Recommended after 2 years

WARRANTY
1 year

Air Filter Supplies is committed to providing a "one-stop shop" for all of your air filtration requirements. As an air filter manufacturer, we are uniquely positioned to custom make most types of air filters.

Why use RGF's REME-HALO®?

The REME-HALO® utilises RGF's patented REME® Cell technology to recreate nature's process of purifying the air. When installed into the existing air conditioning or heating system air ducts, the REME-HALO® produces airborne Hydrogen Peroxide that is distributed through the HVAC system and into the conditioned living space. Unlike passive air technologies, which need pollutants to pass through the unit for purification or filtration, the REME-HALO® actively purifies pollutants at the source.
